

# How Thunderstorms Happen

Complete these information boxes with what you know.

The diagram illustrates a thunderstorm over a landscape. On the left, a town with a church is on a green hill. On the right, a bare tree stands on a slope. A red arrow points upwards from the ground towards a cloud. The sky is blue with white clouds containing red '+' and blue '-' signs. Yellow lightning bolts strike the ground. Blue rain falls from the clouds. Several white boxes with black borders are placed around the scene for labeling.
